

POUNDING MACHINE:

Features & Benefits:

- Easy to maintenance and cleaning
- Used of high precision components
- Easy to operate
- The taste of the product remains same and increase in aroma of the product
- High efficient
- The pounding series machines are highly effective as well as non-stop continuous crushing

Pounding machine is used in food processing industries. It is suitable for all the type of spices and herbs. Pounding machine concept is designed like old style hammering the product .without losing the aroma, taste and quality of the product. It is upgrade according to the modern life with using the motor and SS shaft. Pounding machine is equipped with mixing screw which helps to mix the products automatically. Pounding machine also equipped with specially designed lever to lock or unlock the hammering process will removing or cleaning the product.

Pounding machine can be used for a wide range of application e.g. Herbs and spices like red chilies, black pepper, white pepper, cinnamon, cardamom, coriander, rice etc.

Other Industries and Applications of Roasting Machine

- Pharmaceutical Industry
- Chemical Industry
- Agricultural Product
- Food Industry

Model Name	SE PM2	SE PM4	SE PM6
Machine Capacity	100 -150 LTR	150 -350 LTR	300 -650 LTR
Material	SS 304	SS 304	SS 304
Power	2 HP	2 HP	3HP
Size	CUSTOMISED	CUSTOMISED	CUSTOMISED
Application	POUNDING	POUNDING	POUNDING
Product Type	HAMMERING	HAMMERING	HAMMERING
